

Deliverable 5.4

**MSCA-ITN Training for Big Data in Financial Research and Risk Management
“BigDataFinance”**

Grant Agreement: 675044

This is Deliverable 5.2 of the Work Package 5 (WP5) in “Training for Big Data in Financial Research and Risk Management” (BigDataFinance) Innovative Training Network Marie Skłodowska-Curie project 2015-2019.

Winter School and Workshop: Complex networks in finance

BigDataFinance network’s third training event, “Complex Financial Networks” was organized between 9th – 13th of January 2017 at University of Zürich (Switzerland). The official program is available at the Winter School website:

In addition to BigDataFinance Early Stage Researchers and other network members, the event was also open to external participants, and altogether 29 externals attended. All network’s thirteen ESRs attended to the training event.

All ESRs, network members and external participants took part in evening activities together, encouraging bonding as a team and the development of personal relationships to facilitate subsequent collaboration throughout the duration of the network.

On the 31 January 2017, Zürich

Professor Stefano Battiston
Coordinator of BigDataFinance
